GOVERNMENT OF MYSORE, STORES PURCHASE COMMITTEE, BANGALORE.

No. S. P. C. 18131-40, *dated 9th April* 1935.

To,

The Firms dealing in Steel Poles.

Enquiry No. 1308.

STEEL POLES.

GENTLEMEN,

I write to request you to quote your best price and earliest time of delivery for the following materials :—

290—Steel Poles 45 ft. overall length conforming to the brief specifications below :—

The overall length of the poles should be 45 ft. The diameter of the bottom section of the pole should be not less than 10" and thickness not less than 9/32"; the diameter of the top section should be not less than 6" and the thickness not less than $\frac{1}{4}$". The middle thickness and diameter should be suitable for the strength specified. The poles should be made either in one continuous tube or should consist of three sections of seamless steel tubular poles and made from Siemens-Martin high tensile steel with a tensile strength of 35 to 40 tons per sq. inch and elongation of 10 to 12 per cent. The breaking load of the pole should be not less than 3,400 lbs. applied 18 inches from the top when the pole is planted 6-ft. in the ground. 5 per cent of these poles would have to be tested at the works for deflection load and collapsing load, as well as drop tests in the case of step-poles, free of charge and the test certificate signed by a responsible officer of the Company would be required with the invoice.

Full details of the material offered such as diameter, thickness, collapsing load, deflection load etc., should be furnished with the tender.

The ploes should be free from defects of any kind as per B.E.S.A. Specifications.

As the poles are required urgently, the earliest possible date within which supply will be made should be specified and in the event of an order, the time for delivery stipulated should be strictly adhered to.

The price to be quoted should be for delivery, c. i. f., Madras.

This enquiry will close on the 30th April 1935.

No. S. P. C. 18271-78, *dated* 11*th April* 1935.
